Dear Sir,

We at the Darraweit Guim, Rural Fire Brigade would like to say that your light tower that we are now using is truly a wonderful item of our equipment and we can not speak highly enough of its versatility.

The units lightweight and simplicity of operation, aids the intended function of supplying more than adequate working light at fire and accident scenes.

An additional feature we have noted with the unit is that due to its height, it can be placed alongside a Tanker Unit and still provide a good working light level all around the Tanker reducing the need for continual use of torches.

I can say, that the unit would be a valued asset to any Rural Emergency Service, and accordingly I have passed this view onto our Regional Headquarters.
